28-DAY VIEW

- The 28-Day View allows users to view past, present and future rental status of equipment by category
- Drill down into any time line to review rental agreements and status of contracts
- View availability in any or all locations to maximize customer service
- Quickly launch an agreement from the 28-Day view by clicking on a start date which shows as available

The screenshot displays the 'Integra Rental Management' interface. At the top, there's a navigation bar with 'New Reservation' and 'Open Agreement' buttons. Below this, a search bar shows 'lift' and 'Bettendorf' as the location. A table lists various lift models with their respective prices for different rental durations. Below the table is a calendar view for January, showing availability for six different scissor lifts. The calendar uses color coding: red for unavailable, orange for limited availability, and green for available.
