RENTAL ASSET MANAGEMENT

Increase profitability and lower operating costs of your rental business with our integraRental Asset Management Software. Integration with integraERP ensures accurate billing and financials, utilizing a single customer data base. Feature rich, flexible and easy to use, integraRental puts the necessary information at your fingertips to conveniently reserve, track, schedule and maintain assets across multiple locations. A 28 day view feature gives you the tools to manage assets in real-time.

GROW REVENUE WITH RENTAL AVAILABILITY MANAGEMENT

- 28 day availability and hourly view allows for quick assessment of every item in the rental inventory.
- Maximize the rental longevity of each asset by using up to date rental and maintenance information.
- System generated overages are correctly charged to the customer at check in.

The screenshot shows the 'New Reservation' page in the integraRental Management system. It features a search bar with 'power' entered and a search button. Below the search bar is a table listing various rental items with columns for Description, Category, Loc Qty, Comp Qty, HalfDay, FullDay, Weekly, and Monthly rates. A 'More Rates' link is provided for each item.
