### ACCESS RENTAL INFORMATION 24/7

Work on any internet enabled device to access integraRental's cloud based solutions including asset information, 28-day Asset Availability View and integraRental QuickQuote.

### 28-DAY VIEW

- The 28-Day View allows users to view past, present and future rental status of equipment by category
- Drill down into any time line to review rental agreements and status of contracts
- View availability in any or all locations to maximize customer service
- Quickly launch an agreement from the 28-Day view by clicking on a start date which shows as available

The screenshot displays the 'Integra Rental Management' interface. At the top, there's a navigation bar with 'Home / New Reservation' and a search bar. Below this, a table lists various lift equipment with columns for Description, Category, Loc Qty, Comp Qty, and pricing options (Hourly, HalfDay, FullDay, Weekly, Monthly). The 'Nifty - Boom' item is highlighted in blue. Below the table is a calendar view for January, showing availability for six 'Nifty Scissor' units at the Bettendorf location. The calendar uses a color-coded system: green for available, orange for partially available, and red for unavailable.
