RENTAL ASSET SOLUTION

Increase profitability and lower operating costs of your rental business with integraRental Asset Management Software. Integration with QuickBooks Online and Desktop, ensures accurate billing and financials, utilizing a single customer data base. integraRental puts the necessary information at your fingertips to reserve, track, schedule, and maintain assets across multiple locations. A 28 day view feature gives you the tools to manage assets in real-time. Ability to add E-Commerce features with the eRental add on.

GROW REVENUE WITH RENTAL AVAILABILITY MANAGEMENT

- 28 day availability and hourly view allows for quick assessment of every item in the rental inventory.
- Maximize the rental longevity of each asset by using up to date rental and maintenance information.
- System generated overages are correctly charged to the customer at check in.

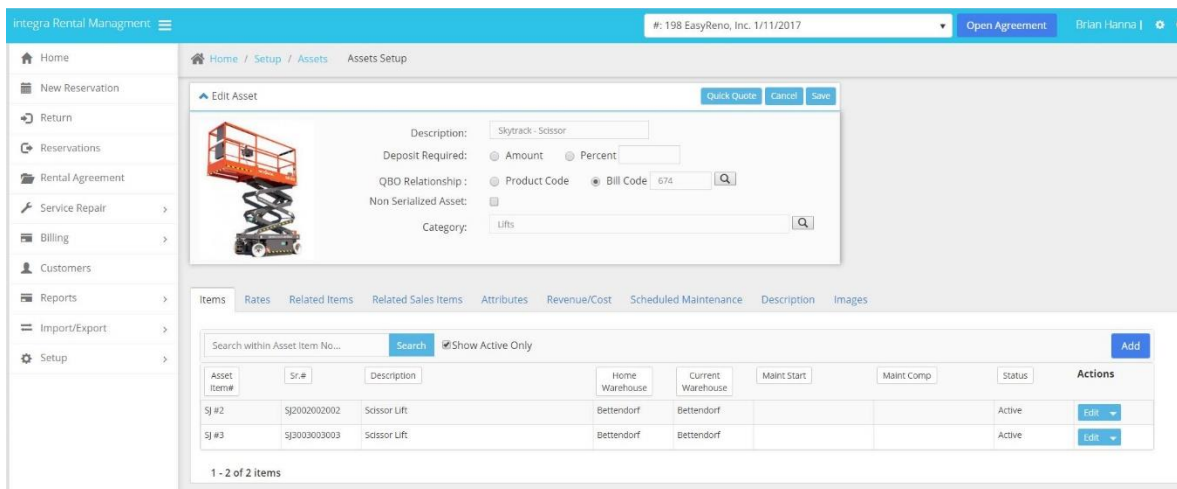

The screenshot displays the 'New Reservation' page in the Integra Rental Management software. It features a search bar with 'power' entered and a date range from 'Begin' to '12/01/2015 08:05 AM'. Below the search bar is a table listing various rental items with columns for Description, Category, Loc Qty, Comp Qty, HalfDay, FullDay, Weekly, and Monthly. A 'More Rates' button is visible for each item. At the bottom of the screenshot is a 28-day availability calendar for December, showing a grid of days with colored indicators (green, orange, black, red) representing the availability status of different assets at various locations.

OPTIMIZE COSTS WITH SCHEDULED MAINTENANCE

- Preventative maintenance – extends the life of each piece of rental equipment allowing maximum rental time.
- A pro-active approach to maintenance can reduce the number of assets needed in your rental fleet.

REDUCE ERRORS AT CHECK OUT / CHECK IN

- Unlimited customizable attributes for check out/check in ensures assets are ready for next rental.
- Meter usage and fuel charges automatically calculate overages at return.
- Service ticket created at return enables assets will be repaired & returned to fleet quickly.

GET PAID FASTER WITH INTEGRATED BILLING

- integraRental integrates with QuickBooks for billing, customer information, parts inventory, products and billing codes giving you a whole business view including financials, sales revenues and general ledger.
- Interim rental billing allows you to bill for the month once the weekly charges exceed or equal monthly rate.
