INCREASE SALES

integraRep can help increase sales with mobile solutions. Having customer info at your fingertips will allow you to visit more customers giving you more time to sell your products! Your sales team will be able to quickly create accurate orders at customer site, answer customer questions and answer with real-time data.

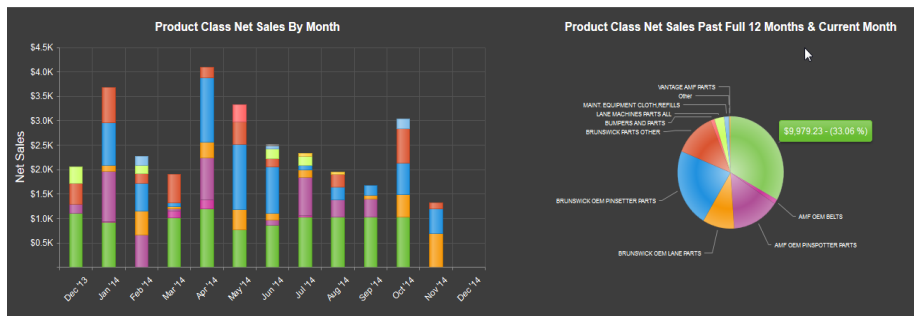

INCREASE SALES BY SPENDING MORE TIME SELLING

- Get customers information quickly – purchase info and order status.
- Place order with customer onsite and analyze your customer’s needs in real-time.
- Network connectivity not available? No problem, sync data to mobile device and have info on hand.

INCREASE SALES WITH QUICK ACCURATE ORDERS

- Up to date product information at the tip of your fingers – pricing, pictures, links & availability!
- Easily take customer orders and use signature capture onsite.
- Customer visit information can be updated at meeting site and managers can track sales pipeline progress.

INCREASE SALES BY FOCUSING ON THE RIGHT OPPORTUNITIES

- Assign Stage of the Sale, Date to Close, Quotation Date & Forecasted to Close Date.
- Email a receipt or quote to customer before leaving the customer site.
- Works on PC's and mobile devices.
