

Integrated Telematics Partnership with RoviTracker

integraSoft has partnered with the trusted tracking experts at RoviTracker to provide businesses the ability to track any make/model of rental equipment. Better visibility on assets and provides businesses with vital metrics to make decisions. Automate check in/check out times with electronically captured metered hours and fuel levels. Reduce cost with the ability to optimize dispatch delivery and coordinate pickups by monitoring (utilizing best route options). The ability to track delivery drivers will improve accountability and route efficiency with accurate Bluetooth tracking.

Features include: Full integration with QuickBooks Online, QuickBooks Desktop and integraERP; 24/7 E-Commerce, mobile rental solutions and easy asset management.
