REDUCE COSTS AND INCREASE CUSTOMER SATISFACTION

integraRep Delivery provides immediate verification of delivery as it occurs. Verification can include signature capture, a photo of the delivered product at customer location or both! Delivery driver can add follow up TAN tasks/notes including customer feedback, return information, requests for appointments and even alert customers to upcoming specials or discounts.

SAVE TIME WITH EFFICIENT SCHEDULING OF APPOINTMENTS

- Schedule deliveries in integraREP and view delivery drivers planned routes
- Maximize efficiencies by balancing work load/deliveries

The screenshot displays a mobile application interface for scheduling deliveries. At the top, there are navigation tabs for 'Mine', 'All', 'Driver 1', 'Driver 2', and 'Driver 3'. Below this is an 'Export to PDF' button and a date selector set to 'Wednesday, October 04, 2017'. The main view is a calendar-style agenda for 'Wed 10/04' showing a list of delivery appointments with their times and destinations. Each appointment is represented by a blue bar with a close button (X) on the right.
